

RMS Policy

Preface / Introduction

As we are dealing with various kinds of risk in equity and currency market, we have framed policy in view to ensure that risk is managed efficiently and in transparent manner. We deal with many kind of risk such as credit risk, liquidity risk, default risk and many such risks in equity, derivatives and currency market etc.

Script wise exposure

Exposure in equity market is categorized by creating separate basket of equity stock based on group, liquidity and category. We have mention different exposure criteria for intra-day exposure and allowable delivery position. We have mention exposure in equity market into 2 categories 1) Normal Market & 2) Panic Market.

Exposure in equity market is categorized in 2 market condition

Normal Market - which is not declared as Panic Market?

Normal Market: Equity exposure.

Client category	Intraday		Delivery		Remarks	
	Stock Category	Hair-cut	X times	Hair-cut		X Times
Approved		12.5	8 *	25 *	4 *	Approved list. Hair-cut for approved scripts may change on daily basis depending on Exchange margin file.
Non-Approved		100	1.00	100	1.00	Other than Approved - All T, M - SM group companies, exposure to be given on clear balance / Margin
